ORBIT: HARNESS INTELLIGENCE

Real Work. Real tools. Right now.

Inside *Orbit* you'll find:

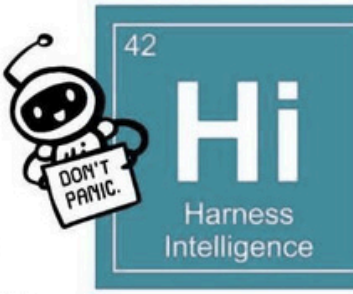
- Prompt packs for productivity, insight, and design
- Peer coaching & facilitator tips
- Shared Prompt Vault (post-session resource)
- Real deliverables created in-session
- Scale-up guidance to embed in team workflows

Hands-on Copilot activation sprints to deepen skills, build assets, and drive impact.

Ignite sparked your journey. *Comet* built your habits. Now it's time to go further. *Orbit* gives professionals the space to apply *Copilot* directly to their real work—producing **usable assets**, **insights**, and **designs** that create **immediate business impact.**

Orbit transforms AI skills into business impact. Each session is a working sprint—focused, practical, and output-driven—so you leave not just with ideas, but with results that matter.

What you'll gain:



- **Deeper capability** — master Copilot in the tools you already use.
- **Real outputs** — walk away with usable emails, decks, memos, and insights.
- **Efficiency at scale** — accelerate repetitive tasks and decision cycles.
- **Augmentation + automation** — learn to design your own *Copilot* agents.
- **Lasting impact** — standardize new routines and workflows that stick.

How it works (3 sprints):

1. ***Copilot* for productivity**
   Outlook, Word, Excel, Teams. Tackle actual emails, reports, briefs, and recaps—leave with work done.
2. ***Copilot* for insight & analysis**
   Excel, Teams, Word. Extract trends, summarize data, and generate decision-ready insights.
3. ***Copilot* for design & visual communication**
   PowerPoint, Designer, Word. Transform cluttered slides and docs into clear, compelling visuals.

Each session = 90 minutes:

- Concept kickoff + demo (10–15 min)
- Real work application block (40–45 min)
- Team share & refine (20 min)
- Facilitator debrief + scale-up plan (15 min)

Take your work into *Orbit*

Sessions are virtual, 90 minutes each, and business-impact oriented. Bring your own work, learn new skills, and walk away with results you can use immediately.

"Orbit gave me the space to actually do the work with Copilot. I left with polished deliverables I could use that same day—and new skills I now use every week."

Harness Intelligence is an **Advantage Performance Group** thought leader partner.

AI

"Orbit is where experimentation turns into expertise. When professionals apply Copilot in the flow of their real work, they don't just save time—they change how value gets created."
— **Harness Intelligence leadership team**

ACCELERATION LAB

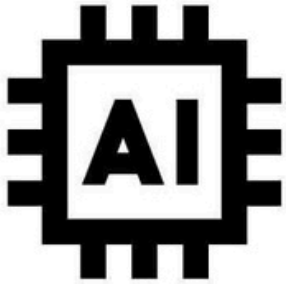
Outpace change, master generative AI, and own the future

Target audience:

Acceleration Lab is an energizing one-day program built for leaders at all levels who are ready to seize the future. This isn't about playing catch-up with change—it's about charging ahead, getting in front of it, and shaping what's next. Collaborative, hands-on, and packed with real work, *Acceleration Lab* delivers bold insights and actionable strategies for leaders who refuse to manage from behind.

Take a free test!
Tap into our ***complimentary assessment tool*** *to measure your command of the 7 intelligence domains powering our proprietary Intelligence Ecosystem.*

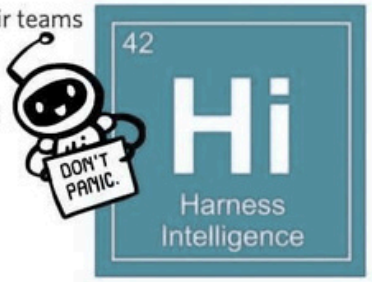
Talk to your Advantage partner or contact us for details on how to access!



Intelligence, activated.

Acceleration Lab isn't just a workshop—it's a working laboratory from our thought leader partners at **Harness Intelligence**. Leaders dive into real challenges, igniting their *Intelligence Ecosystem*™ to fuel breakthrough thinking. In diverse teams, they map their current state with a value chain—from customers to their own function—then engage their preferred AI platform to find new ways to improve efficiency or unlock automation potential. No more reacting—*Acceleration Lab* puts leaders in the driver's seat.

Next, participants tackle 10 game-changing trends that will impact their teams and industries. Armed with foresight, they craft a future-ready value chain 2 years out. With generative AI as their co-pilot, they uncover new realities and find their personal superpower. Teams build "*artifacts from the future*," bringing their vision to life and locking in a mindset that thrives on what's ahead. Finally, using AI and their own critical thinking and self-awareness, they end the session building a personal action plan to put their superpowers into hyperdrive.



Experiential learning approach:
Acceleration Lab is pure energy—with leaders at learning maps, side by side, doing real discovery work. This isn't theory; it's action. Collaboration soars, generative AI mastery accelerates, and confidence grows as you jump from managing change to leading it.

Program content:
Explore your 7 intelligence domains, map dual value chains (now and next), and identify strategies to obliterate inefficiencies or create new value. With 10 future trends to sharpen your edge, AI reveals your superpower, and you cap it with future artifacts that can fuel real innovation. Generative AI isn't just a tool here—it's your new brain in the storm to stay ahead.

Optional add-ons or customization:
After experiencing *Acceleration Lab*, take an 11-step individual journey with ***Comet***—our custom-built **1st90** platform that keeps the fire burning. Share insights and impact through its social features, amplifying your edge.

Learning outcomes: You'll leave *Acceleration Lab* with a better understanding on how to fully leverage your 7 intelligence domains with a bold future vision and the moves to make it real. Generative AI now will fill a virtual seat at your worktable, collaboration hits overdrive, and your superpower ignites—propelling you to lead, not follow. **This is about mindset, momentum, and mastery.**

IGNITE: From Harness Intelligence

Launch your AI journey-countdown to liftoff

Inside *Ignite* you'll find:

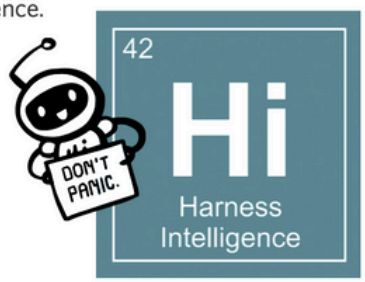
- Quick-start videos (1 min each)
- Mini-scenarios & reflection prompts
- Social questions for peer sharing
- Downloadable job aids
- Leadership guidance video

"I've heard a lot about AI and was a little weary, but after the fun, easy-to-use Ignite experience, I'm excited to continue to use it and build exciting new skills."

Ignite the engines. Start your ascent. Reach new heights—together.

85% of employees hesitate to adopt new tools until they see value in their own work. Ignite **helps you beat those odds** by turning AI from hype into hands-on skill—fast.

Ignite lights the spark for your AI journey from Harness Intelligence. In just 60 minutes of learning in the flow of work, you'll move from curiosity to confidence with hands-on practice, practical prompts, and clear guardrails. Start small, learn fast, and build real skills that stick. Then it's time to go to the laboratory.



What you'll gain:

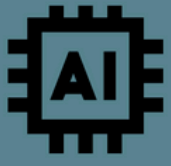
- **Confidence** — demystify AI and see real workplace value.
- **Capability** — learn practical prompts and real use cases.
- **Guardrails** — understand do's/don'ts to use AI responsibly.
- **Momentum** — move from first try to daily habit in 90 minutes.

How it works (6 steps):

1. **What's all the fuss?** – Break myths, see the big picture.
2. **Meet your new coworker** – Reframe AI as a thought partner.
3. **Hands on the wheel** – Try fast wins with *Copilot*.
4. **What good looks like** – Avoid pitfalls, aim for clarity.
5. **Real work, real wins** – Apply AI on the job.
6. **Safe and secure guidance** – Align with known issues, best practices, and specific corporate guidance.

Get started today!

Ignite is live on the 1st90 platform. Sign up to be part of the beta test team—today. **Harness Intelligence** is an **Advantage Performance Group** thought leader partner. Contact us or talk to your Advantage partner to sign up or learn more: contact@advantageperformance.com.



"The future is already here—and you're part of building it. All it takes is curiosity and a first step."

— Dave Hohler, **CIO, Glaukos**
