Do you have any suggestions for improving the program?

Day 3

- "For sure more in person opportunities, in addition to the virtual. Follow up training?"
- "Need more technical support. Took me days to overcome some issues such as getting the video off my phone."
- "Nothing"
- "For the virtual program, too much time was better session 2 & 3. And not enough time between session 2 and coaching prep session."
- "I think this training would be much more effective in-person. I struggled to find enough time to dedicate to learning to apply the feedback I received between my first and final presentations. A more immersive training would allow for less of a fire hose of information, and I would benefit from the opportunity to rehearse in front of others in person."
- "Please also provide content about creating good executive one pagers. Often times folks want a single sheet to take forward and run with."
- "Would like to have heard more virtual presentation skills and tips/pitfalls"
- "It would be easier to use the pdf booklet during teh class if it was broken up to just the pages we'll be filling out. Having the APQ's bingo card in a separate file would make it more accessable during classes."
- "The virtual aspect was a little challenging. I think the training would have been better in person, but it worked this way as well."
